Dear Colleagues,

The countdown is on! The [2025 P4G Hanoi Summit](#) is fast approaching, and we're excited to share more updates in the coming weeks. This invite-only event will bring together leaders, innovators and partners committed to accelerating sustainable solutions. Stay tuned for key announcements and insights!

In the meantime, don't miss another incredible opportunity – P4G year-around application cycle for startup partnerships. This is a unique opportunity for startup partnerships to receive between \$100,000 to \$300,000 in grant funding along with technical assistance to help early-stage businesses become investment-ready. **Apply by Friday, March 7, 2025 (23:55 ET)** to be considered for Round 4 funding.

To qualify, partnerships must include at least **one early-stage business and one nonprofit partner** operating in one of the following P4G partner countries: Colombia, Ethiopia, Indonesia, Kenya, South Africa or Vietnam. Eligible projects should focus on one of the following impact-driven sub-sectors: climate-smart agriculture, food loss and waste, water resilience, zero-emission mobility and renewable energy.

Need more guidance? Visit our [website](#) for full eligibility details or fill out our [brief preliminary contact form](#) to connect with your P4G National Platform Liaison, who will reach out after reviewing your information. You can also watch our recent ["Call for Partnerships" webinar](#) to guide you through the selection criteria, explore [past partnerships](#) we've funded to see the types of projects we support or [read our FAQ](#).

We look forward to your application and the opportunity to partner with you on this journey of impact and innovation!

Patricia Mijares  
Partnerships Manager, P4G

## Pioneering Green Partnerships

Zimi Charge – Sustainability Institute

### Zimi Charge – Sustainability Institute

Zimi Charge contributed to the newly launched "WIPO Technology Trends 2025: The Future of Transportation" report, which explores how climate change and technological innovation are reshaping mobility. This report highlights key trends that will shape how people and goods move in the years ahead, offering valuable insights for individuals making transportation choices and policymakers designing future mobility frameworks. [Read more.](#)

WasteX – Bina Tani Sejahtera

### WasteX – Bina Tani Sejahtera

Students from Acicis, a nonprofit consortium of universities that develops and coordinates study abroad programs in Indonesia, received an informative internship experience with WasteX and Bina Tani Sejahtera. The students visited a biochar facility in Batang, gaining hands-on knowledge on the process of converting organic waste into biochar. [Read more.](#)

MubOn - Fundación Cleantech Hub

### MubOn - Fundación Cleantech Hub

MubOn and Fundación Cleantech Hub, in collaboration with Universidad Icesi - Educación Continua, DeepSea Developments and the Colombian Council for Sustainable Construction, are hosting an "Electric Mobility for Sustainability" certified course. This virtual program will explore the latest trends, technologies and tools in e-mobility and provide an opportunity for attendees to expand their technical and professional knowledge. [Learn more.](#)

Sun Run - Sustainable Transport Africa

### Sun Run - Sustainable Transport Africa

Sun Run hosted its "Sun Run Phase II Training Workshop," a three-day workshop covering essential e-mobility topics, including data collection best practices, IoT devices for smart monitoring in electric mobility, carbon emission reductions, charging hub security and EV tracking. Participants received insights on the design, operation and maintenance of solar PV plants, effective battery management and EV charging techniques for optimal battery lifespan. Participants also visited two charging hubs in Dunga and Nyamasaria and had an engaging session with Awuoth Widows CBO. [Learn more.](#)

eBee Kenya – Sustainable  
Transport Africa

## [eBee Kenya – Sustainable Transport Africa](#)

eBee Kenya joined key mobility stakeholders, including government agencies such as Kenya Urban Roads Authority, NGOs like ITDP Africa and UN-Habitat, and cyclists, for the second House of Cycling meeting. This gathering reaffirmed its mission to make cycling in Kenya safe, accessible and a driver of economic and social progress. Discussions centered on advocacy, financing and data collection, emphasizing the need for collaboration in building a thriving cycling ecosystem. [Read more.](#)
